

# ANALYTICAL TEST REPORT

Report No. LAB-ASH-2026-001 | Sample ID: LAB-SMP-ASH-2026-001 | Batch: ASH-2026-001

DEMONSTRATION DOCUMENT — NOT AN OFFICIAL CERTIFICATE, TEST REPORT, POLICY, OR REGULATORY RECORD.

## 1. LABORATORY & SAMPLE DETAILS

|                    |                                                         |
|--------------------|---------------------------------------------------------|
| Laboratory         | RootSure Analytical Laboratory — Demonstration Facility |
| Laboratory ID      | LAB-MH-042                                              |
| Client / Source    | Collection Hub Nashik — CH-07                           |
| Sample Description | Dried Ashwagandha root                                  |
| Sample Received    | 16 August 2026                                          |
| Analysis Started   | 17 August 2026                                          |
| Analysis Completed | 19 August 2026                                          |
| Sample Condition   | Sealed / intact                                         |

## 2. TEST RESULTS

| Test               | Method / Reference                | Result                             | Status |
|--------------------|-----------------------------------|------------------------------------|--------|
| Botanical identity | Microscopy + reference comparison | Consistent with Withania somnifera | PASS   |
| Moisture           | Loss on drying                    | 7.4 % w/w                          | PASS   |
| Total ash          | Gravimetric                       | 5.8 % w/w                          | PASS   |
| Foreign matter     | Visual / gravimetric              | 0.3 % w/w                          | PASS   |
| Aflatoxin B1       | HPLC / validated method           | < 2 µg/kg                          | PASS   |
| Total aflatoxins   | HPLC / validated method           | < 4 µg/kg                          | PASS   |
| Microbial load     | Plate count                       | < 1.0 × 10 <sup>3</sup> CFU/g      | PASS   |

## 3. MARKER / IDENTITY PROFILE

| Parameter                  | Finding                           | Interpretation                              |
|----------------------------|-----------------------------------|---------------------------------------------|
| Withanolide marker profile | Detected                          | Consistent with declared botanical identity |
| Targeted adulterant screen | Not detected                      | No targeted adulterant detected             |
| Heavy metals screen        | Within prototype acceptance range | PASS                                        |

## 4. REPORT REMARKS

Results shown are fictional demonstration values created for a prototype provenance interface. A real laboratory report would carry the issuing laboratory's authorization, applicable accreditation details, controlled method references, instrument records and authorized signatory.

Report status: VERIFIED — DEMONSTRATION | Sample chain: COL-ASH-2026-001 → LAB-SMP-ASH-2026-001
